Office of General Counsel

Time and Attendance Certification by Fee Basis Consultants

25X1A

1. Regulation [Redacted] requires consultants employed by this Agency to sign the following statement on the reverse of the time and attendance report:

"I certify that for the days covered by this report, during which I was employed, I have not received nor will I claim compensation from any other Government agency, unless otherwise noted."

25X1A

25X1A

2. As you know, this certification is directed at avoiding conflict with the dual compensation statutes but is not particularly applicable when the consultant is paid on a fee, as distinguished from a time basis. In a decision dated October 19, 1951, (B-105707), the Comptroller held that this Agency might employ [Redacted] as a consultant on a fee basis to the National Estimates Board without requiring the [Redacted] to waive his retired pay for those days.

25X1A

3. At the present time, [Redacted] are serving on the National Estimates Board as consultants on a fee basis. The following statement, which would follow the certification, is suggested:

"For the above days on which I performed services as an intermittent consultant on a fee basis with the Central Intelligence Agency, I received retirement pay from the United States Navy."

Would you please discuss this with the GAO auditor and make any amendments that either of you may see fit.
